

Chair-Air® Series

Alternating Pressure Chair Cushion Systems

CHAIR-AIR® 9700GR - GERIATRIC RECLINER MATTRESS AND PUMP SYSTEM

This unique alternating pressure mattress system allows for patients who are at high risk for pressure sores to be placed in a variety of mobile devices. Patients are no longer confined to bed for the whole day due to risks of sitting without proper pressure redistribution. Chair-Air® systems can be integrated into a geriatric chair, recliner or standard high-back wheelchair. Twenty bladders gently alternate, providing low interface pressures in addition to comfortably supporting the patient. The Chair-Air® 9700GR system includes the 9701 alternating pump. Chair-Air® meets California Technical Bulletin #117 for fire retardancy. An optional fire barrier is available to meet the most stringent fire safety requirements, when requested.

Recliner not included

CHAIR-AIR® 9700C - ALTERNATING AIR WHEELCHAIR CUSHION AND PUMP SYSTEM

Six individual bladders alternate to provide the patient a superior pressure redistribution seating surface. The zippered non-skid, stretch-knit cover is anti-microbial and fire-retardant. The Chair-Air® 9700C includes the Chair-Air® 9701 alternating pump.

Shown in cover

CHAIR-AIR® 9700CAF - ALTERNATING AIR WHEELCHAIR CUSHION AND PUMP SYSTEM

Four individual bladders alternate to provide the patient a superior pressure redistribution seating surface while the unique molded design, with slight abductor pommel, stabilizes the hips and keeps the patient in proper mid-line alignment. The zippered non-skid, stretch-knit cover is anti-microbial and fire-retardant. The Chair-Air® 9700CAF includes the Chair-Air® 9701 alternating pump.

Shown in cover

CHAIR-AIR® AC/DC 9701 - ALTERNATING PUMP

The portable Chair-Air AC/DC® Pump allows your patient to be totally mobile. A rechargeable battery backup keeps this system working up to 6 hours per charge, based on the patient's weight.

For use with Chair-Air®, Geriatric Recliner Mattress & Chair-Air® Wheelchair Cushion
