Power-Pro® ELITE INTEGRATED LOW AIR LOSS BED SYSTEM - MODEL 9400

The Power-Pro® Elite integrated mattress combines two clinically effective therapies: True Low Air Loss and Alternating Pressure. The mattress utilizes 18 independent 9" deep air cells to provide proper pressure redistribution for the prevention and treatment of Stages I-IV pressure ulcers. The fully integrated electric bed system features fully electric DC motors, Reverse Trendelenburg, Trendelenburg, High/Low and Cardio position. Bed deck is 7" in low position and 30" in high. The bed has a battery back-up and two side rails.

Vyvex - III® - Urethane coated, multi-stretch, moisture resistant / vapor permeable, low shear, quilted cover, transfers moisture away from the patient’s skin. The cover is washable, anti-microbial, fluid-resistant and fire-retardant.

Ventilated low air loss cells have air holes throughout the mattress to help minimize skin maceration by reducing excess moisture under patient. Air cells are constructed of TPU thermal polyurethane material. Dual bladder design prevents patients from bottoming out, while sitting up and will maintain air during power outages.

CPR Valve quickly deflates mattress system for medical emergencies. A simple twist releases air immediately.

Hose connections feature a transport locking device that ensures the mattress remains inflated for patient transport.

The blower pump is controlled by a micro-processor which allows the caregiver total control of comfort and chosen therapy. Cycle time ranges from 5 to 95 minutes. The blower pump inflates the mattress within minutes, reducing the waiting time for therapeutic treatment to begin. Audible alarm system alerts caregiver of power outages.

**SPECIFICATIONS**

**MODEL 9500 - POWER-PRO® ELITE MATTRESS & PUMP**

- **Dimensions:** 36" x 80" x 9"
- **Weight:** 23 lbs.
- **Air Cells:** 18 - 9" Air cells
  Ventilated bladders with air holes throughout the mattress.
- **Mattress Cover:** Vyvex-III® - Urethane coated, multi-stretch, low shear, moisture resistant / vapor permeable quilted cover. Removable, zippered cover, is anti-microbial and meets California Technical Bulletin #117 for fire-retardancy.

**MODEL 9511 - POWER-PRO® ELITE PUMP ONLY**

- **Dimensions:** 17L" x 7W" x 10.5H"
- **Weight:** 12 lbs.
- **Electrical:** 120V  60 hz
- **Listings:**
  - A
  - CE
  - C
- **Cycle Time:** 5 - 95 Minutes
- **Air Flow:** 60 - 250 Liters per minute
- **Current:** 5A
- **Ground Resistance:** 0.1 ohms maximum

**ORDERING INFORMATION**

- **Model 9400** Power-Pro® Elite Integrated Low Air Loss Bed System™
- **Model 9511** Power-Pro® Elite pump only
- **Model 9526-SRS** Power Pro® replacement SRS side rail safety system cover

**WARRANTY**

- **Pumps:** 1 year limited
- **Mattress:** 1 year limited
- **Cover:** 6 months limited
- **Frame:** 1 year limited
